

VOL. XXXV.

HONOLULU, HAWAII TERRITORY, THURSDAY, APRIL 3, 1902.

PRICE FIVE CENTS.

Soft, silky, glossy, abundant, beautiful, elegant, splendid, handsome—you can't find words to describe a magnificent head of hair. Is this the kind of hair you have?

Is your hair long enough to suit you? Does the color exactly please you? In a word, are you perfectly satisfied with your hair? If not, give it a good hair-food. Give it

Ayer's Hair Vigor

'Twill make you have long, rich, abundant hair, and it will stop falling of the hair, too. Ayer's Hair Vigor always restores color. You can depend upon it every time. It brings back all the rich, dark color you had when you were young. If you are 30, there is no need of looking as if you were 50 just because your hair is gray.

And you will like our Hair Vigor, also, as a hair dressing; while it forms a valuable addition to any toilet table because of the elegant way in which it is put up.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

HOLLISTER DRUG CO., Agents.

Every inch one pushes off beyond the normal distance of twelve inches, after eye failure begins, means an inch of danger.

Ninety-nine persons out of a hundred may do it safely; you may be the one who can't. Those having the best eyes when old age comes will be those who heed the first call for help.

Eyes Examined; Glasses fitted.

WOULD HELP OUR LEPERS

**Alice Roosevelt
Interests Her-
self.**

**FRENCH WOMAN
WANTS TO COME**

**Sends Her Petition for Life of
Consecration Through Daugh-
ter of the President.**

Miss Alice Roosevelt, the daughter of the President, has interested herself in the Molokai lepers to the extent of trying to gain admission for a French girl, who wishes to nurse them. The woman who is so anxious to consecrate her life to the care of the lepers, is Marie Leurquin, who is now at Brussels, Belgium, and who enlisted the aid of Miss Roosevelt in her efforts to carry out the plans. Her appeal was not in vain, for Miss Alice promptly took up the matter and laid the letter before President Roosevelt, who in turn submitted it to the Department of the Interior. From there it was forwarded to Governor Dole and the Acting Governor yesterday transmitted the correspondence, which included translation of the letter to Miss Roosevelt, to the Board of Health. The correspondence follows:

Department of the Interior,
Washington, March 12, 1902.
The Governor of Hawaii, Honolulu,
H. I.:

Sir: I transmit herewith a translation of a letter addressed by Marie Leurquin to Miss Roosevelt and referred by the President to this Department for consideration.

It will be seen therefrom that Mademoiselle Leurquin desires to consecrate herself to the care of lepers at Molokai, Hawaii, and requests permission from this Government to proceed to the island and engage in such charitable work. She also states that four sisters were sent to Molokai for work among the lepers by this Government, and it is with them that she desires to associate herself, and that she is able to defray the expenses of the journey to Hawaii in case permission is accorded her. She has this day been advised that the Sisters in question were not authorized by this Department to enter upon the mission above referred to, but that possibly authority therefor may have been granted by the proper officers in Hawaii.

I have to request, therefore, that you will look into this matter and advise the Department as to whether it will be practicable for the Hawaiian Gov-

**A Cure for
Rheumatism**

There would be a great many less sufferers from rheumatism if everybody knew about Halpruner's Rheumatism Cure. Man and woman who have suffered for years and who have taken Halpruner's have been cured. It is a medicine of remarkable curative power, and it never fails to benefit those who take it. Its wonderful penetrating powers go to the seat of the trouble and remove pain and inflammation, giving strength and health to the injured and affected parts.

Don't be afraid to use Halpruner's. It is so harmless the smallest child can take it without the slightest injury.

Don't continue to suffer from rheumatism; go to your nearest druggist and ask him for a bottle of Halpruner's Rheumatism Cure. If he wants to sell you something else insist on Halpruner's. There is nothing so good and nothing will cure you so quickly—50c and \$1 a bottle. Demand the genuine.

Halpruner's

"I know it is fine for rheumatism, or I have tried it with excellent results."
"H. C. SHAW, Stockton, Cal." 8
Halpruner Medical Manufacturing Co., 28 California St., San Francisco.

enment to comply with her wishes in the matter.
Very respectfully,
(Signed.) **THOS. RYAN.**

Mademoiselle: I have a great desire to consecrate myself to the care of the lepers of Molokai. I have solicited this privilege from Monsieur Prufert, the missionary Bishop of Honolulu, who has replied to me that the thing is not in his power but depends upon the American Government; that it was the Government and not the mission which sent the four Sisters there, and with whom I desire to associate myself in order to bestow my cares on the unfortunate lepers.

Mademoiselle, I am forty years old, and without being rich, I am, however, able to pay a thousand francs a year for my board and all the expenses of the voyage.

I have taken the liberty of addressing myself to you, Mademoiselle, hoping that Monsieur the President, your father, would not refuse you this, if you would have the kindness to present my request to him yourself.

If I obtain that which I desire, my gratitude toward your august family will be eternal. I will pray every day for the President in a manner very special in order to preserve him from the evil which actually threatens all crowned heads.

Accept, I pray you, the expression of my profound respect.

Your humble servant,

MARIE LEURQUIN.

Brussels, Feb. 13, 1902.
I pray you mademoiselle, have the kindness to respond to me in care of my most intimate friend,
Mademoiselle Marie Honore,
Rue de Ursulines 18,
Brussels, Belgium.

It is not altogether certain that Miss Roosevelt's efforts will be successful, as the matter must be referred to the Sisters already at Molokai, and to Bishop Gulstan, under whose leadership they are working. However, it is believed that they would not object to further aid, though their wishes will be considered by the board. President Sloggett stated that the board had no objection but that the Sisters and Bishop Gulstan should first be consulted as to whether they desired any further assistance. If a favorable reply is received the Board of Health will return such an answer to the request.

PRIESTHOOD OF SACRED HEART

**Personnel of the Catholic Mission.
Reception for Father
Alencastre.**

The year book of the Congregation of the Sacred Heart, issued in December, 1901, contains interesting data concerning the priesthood of the Sacred Heart. It is this order which controls the Catholic mission in the Hawaiian Islands. The book is in French and refers to the mission here as the "Mission des Iles Sandwich." Among the footnotes is one stating that the first mission was founded here in 1826 by the Reverend Father Bachelot, who was raised to the Vicariate of the group in 1844 by Pope Gregory XVI. Mgr. Francois Robert Gulstan, the present Bishop, who was born in 1839, professed the faith in 1861, was given the title of Bishop of Papeete in 1892. The personnel of the clergy in Honolulu and the other missions in the islands is as follows:

Rev. Fathers.	Born.	Pro- fessed.	In office.
Cornelle Limburg, prov.	1848	1869	1871
Leonor Founesl	1823	1847	1848

Roch Rech	1878	1898	
Willibrod Haats	1878	1900	
Laurent Bergmans	1881	1900	

Stephanus Alencastre, student brother, will be ordained a priest on Saturday morning at 7 o'clock, by Bishop Gulstan. He is a Portuguese, and hails from Maul, where he has spent most of his life. Desiring to enter the priesthood, he was taken to Rome a few years ago to study, and is now fully equipped to assume holy orders. He is a graduate of St. Louis College, and is the first Hawaiian boy to enter the priesthood. A reception will be tendered him in the Catholic Mission Hall on Saturday evening by his former school mates, to which the Portuguese societies and friends have been invited. The following committees have been appointed to arrange the function:

Invitations and Arrangements—J. B. Sabate, M. R. Medeiros and V. Fernandes.

Reception—L. Medeiros, M. S. de Poete and Alfred Rosa.

Financial—Father Valentin and A. Nascimento.

Program—Father Valentin and J. Teves.

Decoration—A. Nascimento.

Refreshment—J. Rodrigues.

Father Alencastre will attend his first mass as a priest on Sunday morning.

NOT READY TO REPORT

**Action on Molokai
Matter Is Put
Over.**

**WATERING PLACES
FOR HONOLULU**

**Supt. Boyd Considering a New
Plan—Japanese Medical So-
ciety Wants Information.**

All the members of the Board of Health but E. A. Mott-Smith were present at the regular meeting yesterday. The committee appointed to investigate the complaint of Ambrose Hutchinson, regarding the alleged mistreatment of a leper at Molokai, was not ready to report, and a special meeting will be called later to consider the matter.

E. P. Dole, chairman of the committee, reported briefly upon the trip made by the court of inquiry, but stated that it might be more than a week until all the evidence could be transcribed and the committee would be prepared to report its findings. He stated that the visit was made in a drizzling rain, the investigation beginning at eight o'clock in the morning and lasting until two in the afternoon. Upon motion, it was decided that President Sloggett call a special meeting at which the report will be presented.

WATER TROUGHS FOR HONOLULU.

Honolulu is soon to have public drinking fountains for man and beast, according to a report made yesterday by Inspector Keen to the Board.

Supt. Boyd is in charge of the plan and referred the matter to the plumbing inspector. The following communication was read at the meeting in regard to the matter:

Dr. J. S. B. Pratt, Executive Officer

Board of Health.
Sir: I desire to call the attention of the honorable Board of Health to the application that has been made to place upon the public streets drinking places for the general public and watering troughs for stock, this having been referred to me by the Superintendent of Public Works, and as the gentlemen interested were anxious to begin their construction at once, I have taken the liberty after an examination of the troughs to write to him in substance as follows:

"That while the trough for stock has considerable merit about it, that it is liable to get out of order, yet I see no objection to its use at such places as the Superintendent of Public Works might designate, provided provision was made for the care of the waste water, and provided also that the event of its becoming a nuisance on account of the water overflowing into the streets the Board of Health would order such nuisance abated at once. And as to the drinking places for the general public, for obvious reasons, I could not recommend them on any account."

Hoping this meets with the approval of your Honorable Board, I am,
Very respectfully,
E. G. KEEN,
Inspector of Plumbing and House Sewers.

N. W. Griswold, who is interested in the concern which wants to put the watering places about the city, appeared before the board, and explained the merits of the device.

The apparatus is to be furnished without cost to the government, as it is said that the object is simply to advertise it. Mr. Griswold explained that each trough would cost about \$200, but was to be furnished free to the Territory. In regard to the drinking fountain for man, he explained that each cup would be flushed twice after being used, and that the apparatus was as cleanly as it is possible to make it. Upon motion the matter was referred to a committee consisting of Fred Smith, Paul Isenberg and Dr. C. B. Cooper.

JAPANESE MEDICOS.

The following communication was referred to the Board of Medical Examiners, the Board of Health holding that the question of examination had passed beyond its jurisdiction:

Honolulu, March 29, 1902.
To the Hon. Board of Health:
Gentlemen—The Japanese Medical Society of Honolulu having received a copy of the discussion which occurred during last December between the Honorable Board and the Japanese Consul, and having on January 10, 1902, addressed a request to the Honorable Consul, have received no reply thereto, beg to call your attention to the following:

At a regular meeting of the Society, the following resolutions were passed: First—All Japanese applicants for a license to practice medicine must first produce the proper credentials and regular diploma to the Japanese Consul and receive his endorsement.

Second—After receiving said endorsement the credentials are to be examined by this Society.

Third—The local Board of Health is requested to appoint two graduate and regular practicing physicians to the said Board, said physicians to be native Japanese.

The Japanese Medical Society of Honolulu begs to respectfully call your attention to the above and asks of your Honorable Board its kind consideration of the same.

Respectfully,
DR. J. UCHIDA,
President.

BOYD GETS THE COMPLAINT.
The petition of residents of Beretania,

Punchbowl, King and Alapai streets in regard to surface water, which was published in The Advertiser a few days ago, was referred to Supt. Boyd of the Department of Public Works. City Sanitary Officer Tracy reported that the houses in that district had been connected with the sewer system whenever possible, and that the overflow of water was due to surface draining. He said that the conditions complained of could be remedied at very little expense.

HEALTH REPORTS.

Dr. Cofer reported for the two weeks ending March 11, 44 plague cases, with 12 deaths in Sydney; for Hongkong one case of cholera and one death. On the day of departure of steamer a Japanese boat arrived with eight cases of cholera. There were eight cases of smallpox at Shanghai and at Nagasaki one case of plague. At Kobe and at Yokohama no quarantine diseases are reported.

OTHER MATTERS.

In the report of the medical examiners Treasurer Wright was requested to issue licenses to M. Ogama and E. Ishimitsu.

The Hilo fish market matter again went over until the next meeting.

Action in regard to condemned ponds was also postponed for a week owing to the absence of E. A. Mott-Smith, chairman of the committee.

The application of Dr. Chas. E. Butler for permission to go to the Leper Settlement was granted. Dr. Butler is the naval medical officer aboard the Albatross and while that boat is fishing off the coast of Molokai he desires to visit the settlement.

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief—as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as **WAMPOLE'S PREPARATION** is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be to plain to everybody. It is beyond price in Weakness and lack of Nervous Tone, Anemia, Scrofula, La Grippe, Lung Troubles and Impurities of the Blood. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfé, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. Effective from the first dose. Sold by all chemists here.
